## INTRODUCING CLIMATE MAP

Climate change is one of the most pressing challenges of our time, impacting every aspect of our lives and the world we live in. Educators and adults play a crucial role in shaping the future by empowering individuals with the knowledge and tools to take meaningful action. Building on the success of the Calendar for Climate Change (C4CC) project, we are excited to introduce Climate Map – a dynamic initiative aimed at fostering cross-country collaboration to tackle climate change.

### Project Objectives

- Inspire and educate: To provide educational materials that raise awareness and promote positive actions towards climate change prevention.
- Facilitate cross-country learning: To make national case studies and self-directed learning materials accessible across Europe by translating materials into English.
- Promote digital readiness: To develop digital tools that enhance users' digital skills and resilience.
- Engage all generations: To create resources suitable for both young and old, fostering intergenerational learning and cooperation.

# Project Activities

Translation of Climate Change Materials to English

- Translating national climate change resources from the C4CC project into English, ensuring accessibility and wider reach.

Development of an Infinity Wall Calendar

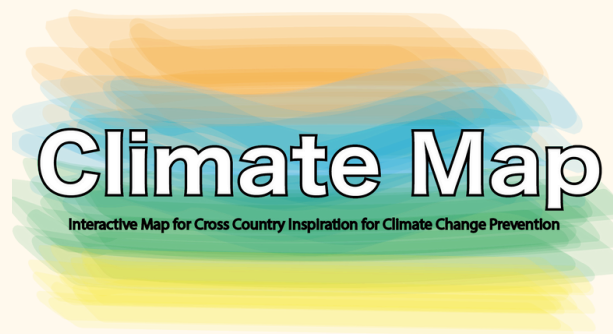

- Creating a perpetual wall calendar featuring monthly climate change topics, available in multiple languages and linked to the online climate map.

Creation of an Online Interactive Climate Map

- Developing an interactive map that provides access to climate change resources and integrates with the C4CC app.

Promotion and Management

- Ensuring effective dissemination of project results, managing project activities, and maintaining a strong focus on sustainability and impact.

## What's next?

We will be engaging with educators, institutions, and the public to maximize the reach and impact of our resources. Through workshops, digital tools, and strategic dissemination, we aim to inspire actionable change and foster a more climate-conscious Europe.

Stay tuned for updates on our progress and upcoming events. Follow our progress, participate in our activities, and help spread the word about ClimateMap. Together, we can make a significant difference in the fight against climate change!

# Meet Our Partners

The ClimateMap consortium is composed of experienced organizations committed to educational innovation and climate action:
