

Welcome to the **GlobeTrotters** Newsletter

GLOBE TROTTERS is an Erasmus+ project dedicated to empowering women entrepreneurs eager to expand their reach internationally. Through the project, we are developing and refining a toolkit designed to assist educators and experts in hosting innovative workshops. These workshops offer women entrepreneurs a unique platform to enhance their international networking skills, collaborate effectively, and showcase their talents on a global stage.

Our toolkit guides facilitators through planning, executing, and delivering engaging sessions that foster collaboration and knowledge exchange among women entrepreneurs. This not only helps them connect with like-minded individuals but also increases their chances of forging meaningful international relationships.

Our partners also share their training, networking, internationalization, ICT, and adult skill development knowledge. We aim to deepen our understanding of the competencies and skills educators need to support women in their journey towards global expansion effectively.

In this newsletter you will also find:

Information about the final TPM, event in Malta, and the project wrap up.

Final Transnational Partner Meeting

On October 18, Skills Zone Malta hosted the final transnational partner meeting, during which all partners from Spain, Italy, and Malta gathered. This TPM marked the culmination of our collaborative efforts, allowing us to discuss the final results, evaluate our achievements, and plan the final wrap-up and reporting process. The meeting has also allowed us to strategise our final dissemination activities. We are excited about the next steps and look forward to sharing the outcomes with all stakeholders and our other audiences soon!

Final Multiplier Event

The project's final event in Malta was a remarkable gathering of over 30 inspiring women. Project partners were able to share insights about their organizations and the innovative design-thinking methodology that shaped our workshops. Two Maltese participants also spoke about their experiences during the workshops held in Barcelona this past September, highlighting how the project impacted their personal and professional growth. Moreover, the event provided an open space where each participant had the opportunity to voice what matters most to them, sparking meaningful discussions and empowering connections. We concluded the event with a delightful reception, creating the perfect atmosphere for networking and forging new partnerships. **It was a fitting end to a project that has brought women together across borders to learn, grow, and inspire one another!**

Partner Organisations

Make sure to check our partner organisations' websites and follow them on social media in order to learn more about the project and its final results.
